Experience

MIS SPECIALIST SENIOR CONNECTION CENTER, INC.

Nov 2023 - current

Develop and maintain a full-stack app using PHP, JavaScript, HTML and CSS with a MySQL database. Implement continuous improvements by making an encrypted password and incorporating more database tables for faster functionality.

Skills

C++, Java, Spring Boot,

Maven, PHP, SQL,

JavaScript, HTML, CSS

React.js, Git, AWS

PROJECT – FULL STACK APPLICATION

Sept 2023 – Dec 2023

Develop and maintain a full-stack app using Java, Spring Boot, Maven, and React.js with an RDS Postgres database. This is a RESTful API following a three-tier architecture that works seamlessly with a react.js frontend. The goal of this application was to log and track clients and their locations.
